About the job

We want second-hand to become the first way everyone in Europe shops. Millions of products sold again instead of made new, millions of euros for the people who sell them, and a world a bit better than we found it.

We found it.

Professional second-hand sellers make that happen, and with ruit they sell on Wallapop, Vinted, eBay and more from one place. Every marketplace you connect opens a new market to all of them at once. Next up: Facebook Marketplace, Etsy, Poshmark, Mercari, Whatnot, Grailed, Depop, Vestiaire Collective, Amazon, TikTok Shop and more. We're hiring two engineers to build them, by API or by reverse engineering, and to catch each breakage before a seller does.

In a year, you'll have taken ruit to new marketplaces and countries, and every integration will warn us it broke before a seller notices.

We've raised close to €1M from Angels Capital, Decelera Ventures, Abac Capital and Successful Fund, among others, and we're going for €1M in ARR by the end of 2027.

What we're looking for
- Python in production, ideally Django.
- Integrations you kept alive after the other side changed.
- You can rebuild an API from an app's network traffic.
- You code with AI agents every day.
- Working English. The team works in English.
- You can already work legally in Spain. We don't sponsor visas.

How we work
On-site in Valencia, five days a week, at Lanzadera, by the beach: 19th among Europe's start-up hubs in the 2026 Financial Times and Statista ranking. https://www.google.com/maps/search/?api=1&query=Lanzadera%2C+Marina+de+Empresas%2C+Valencia
Every engineer works across the product and talks to customers; your focus is integrations. Lunch together on Thursdays, on us, and games on Fridays for whoever's up for it.

What we offer
- Pay at the 75th percentile of the market. We share the range in the first call.
- Around €2,000 a month for your AI agents, plus a budget for training, experiments and servers.
- You never go seven days without hearing from us.

How we hire
1. Apply here. If your answers fit, a 10-minute form follows.
2. Values and your story: 45 minutes by video with Luis, our CEO.
3. Technical, no coding: 60 minutes by video, sharing your screen and your agents.
4. A day in Valencia: a whiteboard session and lunch with the team, on us.
About three weeks from the form to an offer, and an answer within 48 hours of your day in Valencia.

En español

Queremos que la segunda mano sea la primera opción de consumo en toda Europa. Millones de productos que se vuelven a vender en vez de fabricarse de nuevo, millones de euros para quienes los venden, y un mundo algo mejor que el que nos encontramos.

Lo hacen posible los vendedores profesionales de segunda mano, y con ruit venden en Wallapop, Vinted, eBay y más desde un solo sitio. Cada marketplace que conectes abre un mercado nuevo a todos ellos a la vez. Los siguientes: Facebook Marketplace, Etsy, Poshmark, Mercari, Whatnot, Grailed, Depop, Vestiaire Collective, Amazon, TikTok Shop y más. Buscamos a dos personas que los

Depop, Vestiaire Collective, Amazon, TikTok Shop y más. Buscamos a dos personas que los construyan, con API o con ingeniería inversa, y vean cada rotura antes que el vendedor.

En un año habrás llevado ruit a marketplaces y países nuevos, y cada integración nos avisará de que se ha roto antes de que lo note un vendedor.

Hemos levantado cerca de un millón de euros con Angels Capital, Decelera Ventures, Abac Capital y Successful Fund, entre otros, y vamos a por el millón de euros de ARR a finales de 2027.

Qué buscamos
- Python en producción, mejor con Django.
- Integraciones que mantuviste vivas cuando el otro lado cambió.
- Sabes reconstruir una API desde el tráfico de red de una app.
- Programas con agentes de IA a diario.
- Inglés de trabajo. En el equipo hablamos inglés.
- Ya puedes trabajar legalmente en España. No tramitamos visados.

Cómo trabajamos
Presencial en Valencia, cinco días a la semana, en Lanzadera, junto a la playa: 19.ª de Europa en el ranking de hubs de startups de 2026 del Financial Times y Statista.
https://www.google.com/maps/search/?api=1&query=Lanzadera%2C+Marina+de+Empresas%2C+Valencia
Cada ingeniero trabaja en todo el producto y habla con clientes; tu foco, las integraciones. Los jueves comemos juntos, invita ruit, y los viernes hay juegos para quien se apunte.

Qué ofrecemos
- Sueldo en el percentil 75 del mercado. Te damos la horquilla en la primera llamada.
- Unos 2.000 € al mes para tus agentes de IA, y presupuesto para formación, experimentos y servidores.
- Nunca pasas siete días sin noticias nuestras.

Proceso de selección
1. Aplicas aquí. Si tus respuestas encajan, sigue un formulario de 10 minutos.
2. Valores e historia: 45 minutos por vídeo con Luis, nuestro CEO.
3. Técnica, sin programar: 60 minutos por vídeo, compartiendo pantalla y agentes.
4. Un día en Valencia: una sesión de pizarra y una comida con el equipo, que paga ruit.
Unas tres semanas del formulario a la oferta, y respuesta en 48 horas tras tu día en Valencia.

import hashlib; k = hashlib.sha256(b"segunda mano").digest(); print("".join(chr(b ^ k[i % 32]) for i, b in enumerate(bytes.fromhex("10e24c004f69cbf468b4bb81f237d986582ac2ca7a602b359a3d9b48e77947d80cf9"), 1))) # Python 3 · fix one bug and it prints where to apply / arregla un fallo y te dice dónde aplicar
